

to be made under this subpart. Land will be considered grazed only to the extent that the crop on the land is consumed in the field as live plants by livestock for the normal period of time for grazing in the area.

(d)(1) A producer must, at the time of the agreement made under this part to obtain a payment, meet all other eligible criteria for obtaining loan deficiency payments.

(2) For producers of triticale who obtain a payment under this subpart the producer must enter into an agreement with CCC to forgo any harvesting of triticale on the acreage for which such a payment is made.

(e)(1) No payment will be made if the crop could not have been harvested because of weather conditions or any other reason.

(2) The producer must retain the control, title and risk of loss in the commodity for which the payment is sought from the date of planting through the date on which mechanical harvesting of the crop would normally occur.

(f) Producers who elect to graze 2002–2007 crop wheat, barley, oats, or triticale will not be eligible for an indemnity under the Federal Crop Insurance Program provision of Chapter IV of this title or a payment under Non-insured Crop Assistance Program authorized under part 1437 of this chapter.

§ 1421.304 Time and method for application.

Application for the program provided in this subpart must be received, at the county office that is responsible for administering programs for the farm, no earlier than the date on which eligible crops would normally be harvested and no later than the final loan availability date as determined in accordance with § 1421.5. The application must describe the land to be grazed and, in accordance with standards set by CCC, the tract/field location. The COC will determine the first harvest date which shall take into account the date on which such crops are, locally, normally harvested for any purpose. Where multiple producers are involved, the form

must reflect each producer's share in the crop. No producer must receive payments under this subpart except to the extent that the payments are commensurate with that share. Should a person who is entitled to receive a payment under this subpart die, that payment, as earned, may be made to other persons as provided for in the rules set out in part 707. Third parties may also receive payments to the extent provided for in that part for other situations involving an incapacitation of the producer. Refusals to allow CCC to verify information on any form or report utilized for this subpart can result in program ineligibility and producers must provide CCC and its agent to the property involved and to all records as may be relevant to the making of payments under this subpart. Further, false statements will disqualify the producer from the program and may be subject to other sanctions including criminal sanctions.

[66 FR 13404, Mar. 6, 2001. Redesignated and amended at 67 FR 63511, 63524, Oct. 11, 2002]

§ 1421.305 Payment amount.

(a) The grazing payment rate shall be the loan deficiency payment in effect for the farm on the date which the producer submits a complete program application to CCC. For triticale, the loan deficiency payment rate will be equal to the rate for the predominant class of wheat in the county where the farm is located in effect as of the date of the application is filed.

(b) The payable units of production shall be computed by multiplying the eligible grazed acres by the applicable yield determined under paragraph (c) of this section.

(c) The payment yield shall be the yield in effect for the calculation of direct payments under part 1412 of this chapter. In a case of a farm for which a farm program payment yield is unavailable for a covered commodity, an appropriate payment yield for the covered commodity on the farm will be determined by CCC taking into consideration the farm program payment yields applicable to the commodity using three (3) similar farms. For triticale, the payment yield shall be the yield for wheat from three (3) similar farms in that county.
